Transmission
Flame Service

A Bridge to Spiritual Freedom
Publication
"As you apply to the Universal God for breath - you are given a grant of pure life which enters through your nostrils to be qualified by the consciousness of your bodies. As you hold the breath within your physical body, your inner bodies pour the color of their consciousness into the breath and as you exhale, the qualified breath becomes a bridge of actual energy which connects with the point of consciousness towards which you direct it."

Holy AEolus
Introduction

On July 19, 1952, the first Transmission Flame Service was held in Philadelphia, Pennsylvania with eleven chelas (students) in attendance, for the magnification (expansion) of Saint Germain’s retreat over Transylvania. On October 18, 1952, the first synchronized worldwide Transmission Flame Service was held with the assistance of 26 Ascended Master retreats and numerous groups of chelas around the globe. This service was begun in answer to a planetary crisis, which was made known to the chelas of The Bridge to Freedom by El Morya, Saint Germain and the Maha Chohan, Holy AEolus.

Initially, its purpose was to expand the sphere of interest for these sacred retreats, which were anchored throughout the Earth by ascended master energy, so unascended beings could start taking responsibility for the amplification and expansion of the God virtues and the blessings that were needed to raise the Earth into a higher vibratory level.

Every thirty days, the Ascended Masters focused their love and attention upon one retreat and through their efforts amplified the quality and power of that retreat for the blessing of the Earth’s evolutions of which they were and continue to be the guardians. It was necessary to prepare, individually and collectively, the evolving souls who had voluntarily joined this particular activity so their forcefields might more quickly transmit the flames of God just as the retreats do. This required the purification, harmonization, and balanced control of the breath through personal daily application. For this reason a specific rhythm was set up and flowed through these unascended beings, who energetically participated in this activity thus magnetizing the flame. This experiment was so successful that within three years, this service allowed the release of beloved Sanat Kumara and he was able to return home to Venus.

The monthly Breathing Statements were used globally by the chelas to synchronize and unite their energies with the retreat and God quality through a specific breathing activity to assist in the transmission of the radiation throughout the planet. With the advent of the Assimilation and Expansion Service the chelas then used the monthly Electronic Pattern or thoughtform, along with the Breathing Statement to become an actual electronic outpost of the flame, within and through their vehicles, expanding this sphere of influence (forcefield) out into the world through this sacred service.

With the arrival of the new millennium, it is once again time to refocus our attention upon the activity of rhythmic breathing. This will allow the immediate transmutation of any misused energy, and prepare us to consciously cooperate with divine beings
and invoke their God given virtues for the expansion and return of all life on planet Earth to perfection. Rhythmic breathing is an essential element and the necessary ‘key’ when using the Violet Flame of transmutation. Each chela must invoke within themselves the remembrance of the correct use of the rhythmic breath in order to more perfectly use this and other sacred flames.

All ascended and unascended beings are held accountable for their use of energy. Thus as self-conscious free will intelligent individuals, we must establish, sustain and maintain the God virtues and qualities, which form the radiating centers for the spiritual impetus of our planet. God needs a body, through which to express and fulfill perfection in the world of form. Thus humanity is given the opportunity to consciously choose to become part of the spiritual nuclei for the flames that are established within a spiritual foci of light, radiating forth the balance for the constructive forces within the lower atmosphere in which humankind has chosen to function.

As individual beings we can also choose to ensonl one of the active principles of the fire element. Through conscious application, discipline and dedication of our energies we actually become a flaming center of that cosmic quality and anchoring it within our heartflame, it becomes part of our own spiritual identity. Thus with every heartbeat, with every breath we increase that momentum of power and sphere of influence. However, to offer this service, we must also recognize and accept the need for absolute unity, cooperation, constancy of endeavor and true loving desire to impersonally help all the people of Earth return to our destined God estate.

Ascended Master retreats are spheres of influence or forcefields. These forcefields are magnetic centers which draw concentrated consciously qualified God energy from the octaves of light. This energy forms radiating centers of these God qualities and they must be maintained through a process of rhythmic sustained attention. This Transmission Flame Service will greatly assist in this endeavor by magnetizing the already gathered cosmic momentums of the Ascended Masters’ retreats, through the inbreathing of the substance of the flame and its virtues located there. Then, by using the magnetizing centers of our own spheres of influence, through each sacred breath, we will expand and project these divine virtues into the world around us.
NOTE: Material in bold is a shorter version more adaptable for daily use. For the monthly service held on the 2nd Saturday of each month (9:45 a.m. EST) use both bold and regular type.

(Material that is in parentheses and italics is where you insert the current month’s information.) (Material underlined and in parentheses are instructions for a group leader directing the service.)

Single Candle Lighting Service

All hail to Thee, Thou Mighty All-Pervading Light of the Universe, the Supreme Source of All Life I AM! We kneel within our hearts in recognition of the Light of the Cosmos as we draw forth this flame, representing the Three-fold Flame of God within our hearts!

TRANSMISSION FLAME SERVICE

Every self-conscious intelligent being (incarnate, discarnate or ascended) created by God, through the use of their own thought and feeling centers, actualizes vibrations, and contributes to the motion of the energy of the universe to which they belong.

By consciously choosing to expose yourself to the higher vibration you will be able over time, to emulate this vibration; by absorbing its radiation and becoming a presence of that same peace, purity, comfort, healing or other divine quality.

One way to develop this higher vibration is through active participation in a co-operative, coordinated planetary service, which, seeks to accelerate the incoming new age of universal peace and enlightenment. This can be achieved through synchronized world prayers, affirmations, meditations, breathing activities and visualizations such as this Transmission Flame Service..

Before one can commence with this service, they should invoke God’s Gift of Protection. We will begin with a simplified Mantle of Light Decree.
Beloved Presence of God I AM in me, I gratefully acknowledge and accept the living reality of your mantle of electronic light substance enfolding me in a blazing aura of ever-expanding protection.

From within thy cosmic heart, I feel the pulsation of the Flame of Divinity, the Divine Presence radiating through my consciousness... through which flows at all times the virtues, qualities and blessings from God to me and through me to all life everywhere.

I do now acknowledge and accept the activity of this Holy Light, sustained around me and my world so that only the Will of God may manifest in all my activities, in all places and at all times... I make this call...

As God’s Most Holy Name, I AM!

Of the utmost importance before entering into this, or any other, service is to transmute any misused energy within or around ourselves, through the use of the Violet Fire. We will now do this by calling upon the Sacred Tone of the Seventh Ray.

In the name of the Presence of God, which I AM: through the magnetic power of the Sacred Fire vested in me... I invoke the powers of the Seventh Ray...

(* repeat after me 3x)

*Transmute, transmute by Violet Fire All causes and cores not of God’s desire! I AM a being of cause alone... That cause is LOVE, the SACRED TONE! (Breathe in...breathe out...)

We accept it done, As God’s Most Holy Name, I AM!

***

As the final step in our preparation we will now transform ourselves by calling for personal purification

Oh, Thou glorious Presence of God I AM, the beloved Ascended Masters, the Angelic Host and other great Beings of Light; flash forth thy mighty light rays now...

(* repeat after me 3x)

* Transform this human consciousness by God’s mighty Sacred Fire.
* Transform this human aura by God’s mighty Sacred Fire.
* Transform this personality by God’s mighty Sacred Fire.
* Transform this human experience by God’s mighty Sacred Fire.
(Breathe in... breathe out...) And with this transformation, I quietly affirm within my soul:

(* repeat after me 3x)

*I AM in the world but not of it!
*I AM in the world yet I AM the essence of God reality!
*I AM an embodied being of light and I AM free!
So be it, beloved I AM!

Experiencing the enfolding cloak of the Presence of God I AM softly wrapped about you, enter the silence, that special place within your heart where you always experience the harmony of your true being. Within this sacred space, a beautiful vista now opens before you - a lovely meadow filled with a multitude of grasses and a variety of wildflowers stretches out in all directions. Floating on the horizon are snow-covered mountains and the meadow is gently enfolded in a vast expanse of crystal-clear blue sky.

Breathing gently and deeply, a magnificent column of shimmering light, with iridescent colors of blue and violet spiraling softly within, appears and then descends from the sky above you. As it envelops you completely, you experience the power of God's mighty protection and the pure and perfect energy of this great light. Becoming aware of your personal breathing pattern, with each breath, draw this light into the center of your being. As you do, you are filled with the knowledge of the meaning of the pure and perfect Love of God. All misconceptions within you instantly dissolve and are replaced with the unchanging but ever-expanding eternal truths conceived and brought forth by God from the beginning of time.

Continuing to gently breathe in and out, the column of light, which surrounds you, expands and radiates outward until the entire Earth is covered and filled with its brilliance. All mankind is now able to perceive the light, is purified by this magnificent light, and accepts the Will of God - that all life is unified within the perfect love and divine truth of God. As you witness this expansion of light, experience for yourself the unity of all life. Know yourself as an illuminating center of purity, truth and unity - a powerful physical manifestation of the I AM Presence! You will be the example of God's Will for all time to come, fulfilling your part of the Divine Plan for the redemption of the entire
planet Earth and all life upon it. With this wis­dom also comes the realization that what is true for you - is true for all humanity.

Permeated with the Peace of God, gently re­turn your awareness to the physical plane, bringing the gifts of purity, truth and unity with you.

Life is energy. Every thing that breathes draws this energy into themselves by conscious ac­tion. The in-breath is the drawing into one's self from the Source - God - the priceless en­ergy that is life. And every time an individual does this, they become accountable to the whole universe for the use of this energy loaned to them by the Godhead.

The breath in your body is yours, be­loved ones, because you desired life and drew it forth from the Heart of God. God, being all Love, granted your request and gave all the love you required. There was and continues to be but one condition, that this life, this energy must go forth from you harmoniously qualified to bless life. Thus, in your inner soul you promised God you would enrich the Universe through the right use of this life energy.

Cosmic law governing the Universe states that you will also draw the life energy you sent out, back into your world after it has accomplished that for which it was sent forth. Without exception, it will come back to you qualified with the same energy with which you sent it forth, amplified by the vibrations of like qualities, which it attracted to itself along its path. Thus, this divine prin­ciple constantly enables the evolving soul to learn more of the nature of the energy each has been given and continues to use. And, that the Guiding Intelligence within our own soul is an integral part of God and therefore, love in action. Thus we do our best to abide by the Law of Harmony and en­rich the Universe through the use of the Holy Breath of God.

Beloved ones, let us now consciously work with the sacred holy breath. Begin to consciously breathe in the Breath of God. Feel its fiery tongues of living flame. Absorb the fire-breath of God deep within your being. Now, as you breathe out, expand and project this sacred essence into the world around you.
Breathe in again... and breathe out... as we con­secrate ourselves as Vehicles for the New Age: We... the chelas of The Bridge to Spiritual Free­dom... offer ourselves as a Cup... a Holy Grail... ONE breath... ONE heartbeat... ONE body... ONE energy... and vibration... ONE consciousness of pure thought and feeling... ONE love... and ONE desire... through which to pour and anchor the light... illumination... wisdom... truth... virtues and instructions... gifts... and the blessings of the Great White Brotherhood to the children of Earth.

(* repeat after me 3x)

* I AM the RESURRECTION and the LIFE of the One Cup, the Holy Grail of the New Age!
* I AM the RESURRECTION and the LIFE of the One Breath, the Holy Spirit of the New Age!
* I AM the RESURRECTION and the LIFE of the One Body, One Energy and Vibration of the New Age!
* I AM the RESURRECTION and the LIFE of the One Consciousness of Spiritual Freedom for the New Age!
So Be It! Beloved I AM!

The moment the invocation is spoken, the atmosphere around us is charged with a mighty flash of flame from the heart, head and hand of beloved (insert current hierarch). From this flame - petals now take shape and unfold, until a luminous lotus flame flower forms, its magnificent petals extending the full width and breadth of this sanctuary. This beautiful thoughtform is at first, transparent and shimmering, the perfect example of a gossamer substance. As you now step into the very heart of the lotus flame and pause for a moment, it intensifies and expands until the petals form enormous pathways, which are suspended in the atmosphere by gently curving bands of light that stretch forth but are anchored at each end by the many spiritual retreats throughout the Earth. By the close of this exquisite ceremony the lotus flame flowers will have been projected out over the entire planet, until the Earth is gently enfolded within an immense lotus flame blossom. Through our cooperative endeavors, the divine essence of (current hierarch) will cover the earth with a brilliant radiance of opalescent light.

If you have not already done so, find a comfortable position, with your spine
straight and your feet flat on the floor. Now, once again, center yourself and become conscious of your sacred breath.

Breathe in deeply... and slowly breathe out. Gently inhale and... slowly exhale, as we prepare to expand the fiery-breath of God by visualizing and working with the Electronic Pattern for this month.

Each month, as we work with the many sacred temples that surround this earth, we focus and direct our energies through one specific spiritual retreat while it floods our world with the gifts and blessings from God located there. Let us now place our attention upon the assimilation and expansion of this retreat's electronic pattern or thoughtform to intensify, magnetize and release its offerings to our dear planet Earth. Begin to visualize...

(insert Electronic Pattern for current month)

Gently breathe in and slowly breathe out as we now prepare to use the monthly Breathing Statement to enhance and fully precipitate the Assimilation and Expansion of the Electronic Pattern we have just visualized.

Each full breath we take is divided into four parts: the inbreath, the absorption, the expansion and the projection. On the inbreath, breathe in the qualities contained within the breathing statement. As you hold your breath in, absorb, these qualities deep within every part of your being. As you breathe out, expand and increase the power and momentum of the divine qualities you are calling forth through the power of the Holy Breath. Holding your breath out of your body, project these magnificent God Virtues and Qualities forth to all life.

As you project these qualities forth, see the dazzling pathways of lotus flame petals expanding outward, carrying these qualities throughout the world with each breath.
