The marvelous instruction and information given in this book, was released through the lifestream of our Beloved Geraldine Innocente in the Summer of 1956 by the Great Being known as The Maha Chohan, Who represents the Holy Spirit to the planet Earth. It is being given forth with the Light and Love of the Ascended Host of Light to assist all mankind at this time of planetary crises, and particularly to encourage, balance and sustain the earnest students of The Bridge to Freedom, and all students of the Light everywhere.

The Great Maha Chohan has said that according to your faith in the cooperation of the Ascended Host of Light, and the perseverance in the release of the energies of the students and all mankind, will the present planetary changes take place without undue discomfort either to the Earth or to Its people.

We, therefore, dedicate this book to the Illumination, Victory and Ascension of all Life into the greater Light of God that never fails, and to the Lifestream of our Beloved Geraldine Innocente, Who is now known as the Lady Miriam, in gratitude for all that Her dear Lifestream brought forth to bless and assist us and all life everywhere. May all the love and gratitude of our lifestreams ever enfold Her.

## THE NEED OF THE HOUR

### Chapter 1.

From out the centuries of darkness, the Planet Earth and Her People are now standing upon the threshold of a Light that shall never again recede, but will grow into the Cosmic Eternal Day in which the fullest manifestation of the potential plans for the Earth and Her humanity will be understood and made abundantly evident.

As the Great Cosmic Law requires the return of the Suns of the Solar System into the Great Central Sun of the Galaxy, each Sun begins to regulate Its centripetal force in order to balance the planets belonging to Its system. The Planet Earth has been bended on Her axis for many ages, and is responding now to the magnetic pull sent forth from our Sun - from the hearts of Helios and Vesta - which force is gradually straightening the axis. This is being done gradually with loving care so that the great polar ice caps will not be violently displaced, resulting in distress on the continental surface of the Planet.

Each of the seven planets of our physical Sun must be quickened to enter and sustain itself in the orbit of the graduating planet. Great Beings are delegated to the task of quickening the vibrations of these planets, and We Whose responsibility rests with the Earth, must prepare Our Planet and Her people to vibrate at the rate of Venus' present perfection. We are, therefore, forced to reach mankind quickly - ALL OF THEM! Every other planet of Our Sun has already signaled "ready"! Yet the Cosmos must wait on the Earth and We must soon have that "go ahead" sign from the hearts of men. Help us SPEED THAT DAY!

## Signs of the New Dawn

The pressure of the Light is so great at this hour that it is enfolding the Leaders of all spiritual activities in the world. Criticism shall give place to Love, condemnation to praise, dogmatism to tolerance, and the domineering spirit to humility. "The wolf shall dwell with the lamb and the Earth shall be full of the knowledge of the Lord, as the waters cover the sea." (Isa. 11:67).

New channels are being opened, not to substitute the old ones, but to assist them! Workers are coming to the front everywhere! Friends of the Great White Brotherhood are rising up from every direction. No man can stop the onrush of this Cosmic Christ Power releasing the Spiritual Currents of the Hour! They could not succeed if they should be so unfortunate as to attempt to breast the currents of the New Dawn. Never before as today, can it be more truly said of the Spiritual Leaders of the world and of all new channels; "By their fruit ye shall know them!"

### The Light needed upon the Earth

Looking upon the Planet Earth with the inner sight, you will see great tides of what We call psychic or astral matter. Where are these tides born? From the mental and feeling worlds of the people on the Earth of the present day, as well as those people who have lived on the Earth since first the "laggards" came to Lemuria.

When individuals leave the Earth in so-called death, they leave their effluvia behind them, and it becomes part of these tides that represent all the qualities of imperfection; pride, arrogance, hate, jealousy and all the other human qualities. These tides are definite strata of en-

ergy because everything in this universe works on vibration, and as your saying is, "Water seeks its own level", so do vibrations of a similar nature seek their own level. Every hate vibration enters into that river of hate. Every jealous vibration enters into that river of jealousy. Every obscene thought and feeling becomes part of such a river, and so on.

That is the atmosphere into which each soul who comes to Earth is born! In the re-establishment of the knowledge of the protective Tube of White Light, some of that pressure can be cut away from its connection with the lifestream. However, dwelling in secret in thought and feeling upon any of these destructive qualities, creates a rent in that protective Garment of Light so that the lifestream is again connected with the mass tide of that particular quality, whether it is gossip, criticism, condemnation, depression or whatever it may be.

We are creating a channel or conduit of perfection from the Ascended Masters Realms of Light into the outer consciousness of unascended beings to assist them, but Our assistance will only be as efficacious as the protection which each individual holds around himself through establishing this Protective Garment or Tube of Light, to prevent these rip-tides from entering and distorting the service you desire to give. It is necessary to be alert to keep out the human tendencies that will try to break through this protection. Call many times each day for this protective Light because when you have had certain tendencies latent within you, you can unconsciously put a rent in your protection. This Garment of Light is especially needed when you are engaged in a very special spiritual endeavor for, "a chain is as strong as its weakest link!"

There is no unascended being who is not an incubator for some imperfection (which is your "Achilles' Heel") which adds to the effluvia that has almost smothered the Earth. Therefore, go into the secret chamber of your heart and ask that those particular discordant vibrations in, through and around you be removed. Then you will have no open door for those tides that try to break into the continuity of the radiation and the clarity of the instruction you are receiving, which is implanted in your outer minds and which through you, with the help of God, will be recorded for the people who are yet to come to our Earth.

#### CALL FOR PROTECTION OF THE LIGHT

BELOVED PRESENCE OF GOD "I AM" IN ME,  
AND BELOVED MAHA CHOHAN; Clothe me in my  
Garment of blazing White Light; and seal  
me in my RING-PASS-NOT of Flame that  
makes and keeps me invisible and invin-  
cible to all human creation, in, through  
around or driven against me, now and  
forever.

## THE INBREATH OF GOD

## Chapter 2.

The Great Central Sun, which forms the pivotal center of the galaxies to which we belong, has completed the out-breath in the great rhythm of cosmic creation.

The great Parent Sun of our galaxy, known as Alpha and Omega, has in Its orbit, countless celestial Beings of such spiritual magnitude and development as would stagger the imagination of the mortal mind. From among this tremendous select Court, there are chosen for the initiation of the Sun, Seven Pairs of Divine Beings at one time, and These Beings, in Their glorious cosmic initiation, are given the Crown, the Robe and the Sceptre by the great God Parents and sent forth simultaneously to build, by the power of Their Own Creative Centers of thought and feeling, seven Planetary Systems.

After the Seven Suns, with the assistance of the Elohim, have evolved the planets of Their Systems and have applied for and secure the Beings who are to have evolution on them, they move downward and outward, until the first Sun has reached the periphery of the cosmic order from the Central Sun and the farthestmost point in the out-going breath. At that time, a reversal of the currents of the Parent or Central Sun takes place, and the Suns are drawn back, together with Their planetary children in the same rhythm, into the Heart of the Father.

So far as Our Galaxy is concerned, We are now on the in-breath and this is why the initiation of the Earth and all the planets, are bent toward the fulfillment of the Divine Edict in the

raising and redemption of the Suns, the Planets and the people as they return to the Home and Heart of Eternal Life.

DESCRIPTION OF THE GOD PARENTS

To describe the beauty of the Cosmic God-Parents of our Galaxy, would require a vocabulary of much more delicate perception than that presently enjoyed by man. These glorious God-Parents may be visualized as the fairest of the fair; Their hair is platinum, Their skins alabaster, and Their Robes of Authority the purest shimmering white, Their entire Beings representing the apex of Embodied Light and Flame, softened and tempered by contour and outline that It might be enjoyed by others.

Those of Us Who have witnessed the initiations whereby a Pair of Exquisite and Perfected Beings were endowed with the privilege of experiencing the creative powers of a Sun, are strongly impressed with the transfer into the hands of the initiated of the Scepter of Power, within which is vested the magnetic center of love and the rhythm corresponding to the place which the Sun will have in the Solar System. This is mystically connected with the heartbeat of all the lifestreams who will embody and mature in a particular Chain. It forms the magnetic pull that holds the souls within the orbit of that Sun and Its Planets; It holds our Sun Itself in a proper and permanent location in the on-moving galaxy to which We belong.

When Our particular Sun - Helios and Vesta - sent forth the Elohim to build and create the planets, each One was given a Scepter magnetized from that which forms the Cosmic Scepter of our System. That Scepter remains with the Lord of the World during the entire time the planet is

peopled by evolving life. The Scepter for the Planet Earth was in the keeping of Sanat Kumara until His return to Venus, and is now in the keeping of Lord Gautama and held within the Secret chambers at Shamballa for the greater part of the year, being taken out on certain mystic occasions.

The Scepters which the crowned heads of Earth carry, are symbolic of this Divine Authority which is manifest in the lifestreams who are the Guardians of the people, and the magnetic power that runs through the spinal column of every individual, is a replica of the vested power described.

If this Cosmic Scepter were removed from the Planet Earth, the bodies of the people would fly into space and the souls who are presently within the realms of the discarnates, would be loosed into the universe. You will see then, how very important is Its magnetic power! It contains two cylindrical balls, representing the positive and negative aspects of life's power. When It is placed upon the pyramid which holds It in repose, It is in perfect balance. One end of this great Scepter represents the gravity pull which in itself is a blessing to the unawakened. When it is reversed through the activity of the individual's own life, It represents the Ascension.

Through the spinal column of every man, both activities work constantly, the descending arc of electrical energy which anchors the body on the surface of the Earth, and the powerful ascending current which enables you to stand erect and move about, rather than be supine on the ground. When the activity of the life is more powerfully charged into the ascending arc, we come to the point where the gravity pull of Earth no longer can hold the lifestream and the Ascension is possible. For each person who comes to the point of

ascending from the wheel of birth and re-birth to return no more, this Rod of Power is brought by the presiding Master and Its power magnetizes the rising current and assists in the actual cutting free the lifestream from the gravity pull of Earth.

#### ONLY TWO ACTIVITIES OF LIFE

There are only two activities of all life! It is so simple and yet so much has been woven into and around the study of mysticism and self-control. There is only the INBREATH and the OUTBREATH! There is the MAGNETIZATION (the inbreath) of the gifts and powers of the God Presence, and then Its RADIATION (the outbreath). Both of these activities take place at cosmic levels with regard to solar systems and galaxies and entire universes.

We shall endeavor to show you something of this Cosmic Scheme in order that you might understand the place in which not only our Solar System but our Galaxy stands at the present time. On the OUTBREATH when creation takes place, the Central Sun of a system, breathes forth the Suns from within Its own Aura. Each Sun then in Its turn breathes out the planets destined to be part of the solar system. This comprises an expression of the outbreath of Deity as regards a galaxy and a solar universe.

At the end of a "cosmic day", the Great Central Sun of that system, notifies all the Suns below It that it is time for the inbreathing of Their Planets, in preparation for the inbreathing of all the Suns and Their Planets back into the Heart of the Great Central Sun.

The Great and Mighty Vesta, God-Mother of our Solar System (our Sun) has explained it thus:

## THE GALAXY TO WHICH THE EARTH BELONGS

## Chapter 3.

"Helios and I belong to a galaxy much larger than the one in which We presently serve. We were a PLANET in that galaxy and We were number four, just as the Earth is number four in relation to the Sun today."

"Our galaxy was headed by a Great Central Sun made up of two mighty Beings Whose Names have long, long gone out of the language of your Earth, but They come close to the sound of ELOHAE and ELOHA, which infers the masculine and feminine aspects of the Elohim."

"This Great Sun God and Goddess sent forth twelve mighty Suns in a descending arc of creation and these twelve Suns, as They descended, in turn sent forth from Themselves in a horizontal manner, twelve great Planets. Our System consisted of the Great Central Sun and Its twelve Suns, each Sun having twelve planets around It, making one hundred and fifty-six planets, including the twelve Suns. The system to which the Earth belongs (your system) came from the Central Sun of Alpha and Omega and has forty-nine planets with seven Suns - one hundred less than the system of Elohae and Eloha.

"Let Me repeat: You have the Central Sun from which Helios and I came, and beneath It twelve Suns. The Fourth Sun down was the Sun to which We belonged and was Alpha and Omega. That Sun in turn, sent out twelve planets in a horizontal manner and Helios and Myself were the Fourth Planet out from the Sun. This was on the out-breath, the Suns descending and the Planets expanding - the outbreath of the Godhead so far as the creation of this galaxy was concerned.:

"On the inbreath, which is the point you are coming to now in your own galaxy, the Suns began ascending, number twelve entering into the orbit of eleven, number eleven going into the orbit of number ten and so on, all the planets of that system also ascending one."

"We represented the fourth Planet in the Fourth Solar System and Alpha and Omega were Our SUN at that time! Alpha and Omega were the fourth Sun in that system just as Helios and I are the fourth Sun in Our present System. At that time all the Suns in our present system were ALL PLANETS!"

"Alpha and Omega were Our Sun; the first planet out from Them was Osiris and Isis; the second one Apollo and Diana; the third planet out was Krishna and Sophia; the fourth planet was OURSELVES! The first movement on the inbreath drew Osiris into the heart of Alpha and Omega, and each planet moved in closer to the Sun one place, We moving into the third place in that system."

"In the next motion, We moved into the second place, then the first place, and finally We were assimilated into the Presence of Alpha and Omega Who in turn went back into the Great Presence of Their Central Sun, Elohae and Eloha!"

~~Causal~~  
~~Causal~~ Body around the Suns

"What exactly happens to the Suns when They are absorbed into a Great Central Sun? That had bothered you somewhat. Around a Sun, or Central Sun, is a ~~Causal~~ <sup>Causal</sup> Body something liked that illustrated in the picture of the Holy Trinity. Around the Central Sun (or the lesser Suns) are what we Call Electronic Belts and these are made up of the number of bands that represent the planetary scheme. All of the planets which belonged to That Galaxy, including Helios and Myself, have the ~~Causal~~ <sup>Causal</sup> Body with the twelve bands around

Causal

it since that is representative of the System to which we belonged. We returned into the heart of Alpha and Omega, and Alpha and Omega ascended upward into the third, the second and first position beneath that Central Sun and then entered into the heart of Elohae and Eloha, the Central Sun of our galaxy."

"WE DID NOT JUST DISSOLVE! That is the thing that the student body becomes frightened about - becoming nothing through the process of absorption, BUT THAT IS NO MORE TRUE than you, as an individual, can become nothing through being absorbed into your own God presence when you become Ascended!"

"In this great ~~Casual~~ <sup>Causal</sup> Body around a Sun, whether it is a Sun of Our System, or Alpha and Omega, is of tremendous size. In It there are glorious Temples of Light and when the Sun Gods return with Their Own Electronic Belt - that is all the planets and Intelligences and Beings within them - They just enter into a space set aside in the Electronic Belt around that Sun and REMAIN as intelligent, conscious Beings; even as there are coming into Our Aura the Beings and all the Intelligences of Mercury! They will live within the Mercurian Temples within Our Aura!"

"When We went back into the Heart of the Central Sun of Our System with Alpha and Omega, into the heart of Elohae and Eloha, We had a choice! We could have stayed there and gone on into Cosmic Heights, or We could have remained in the joy of that magnificent Electronic Belt, Alpha and Omega and six other Suns (seven out of the twelve) applied to create a New Galaxy. That is why the galaxy to which you belong and in which We are presently serving as your Sun, is smaller, since five of those Suns of the previous system, with Their Planets, decided NOT to experiment with becoming Great Central Suns and creating a Uni-

verse in Themselves."

"Alpha and Omega were among the Seven Suns Who chose to become Central Suns, and the Seven now serving under Them as Suns, were THEIR PLANETS When Alpha and Omega were just a Sun in that previous system! So beneath the Central Sun of Alpha and Omega is the first Sun of Osiris and Isis; the second Sun Apollo and Diana; the third Sun Krishna and Sophia; and the fourth Sun Helios and Myself! Then the other three Suns below Us." (see Chart)

"This may seem difficult to understand but everything in this universe is a succession of experiences. First, you are a Planetary Lord, then you have opportunity to become a Lord of the Sun! When this course is completed, Alpha and Omega presently breathing in - Osiris and Isis will be the first Sun to return home into the heart of Alpha and Omega. When all seven of the Suns have returned into Their Hearts, We will then determine what size the next galaxy will be, that is whether Helios and Myself decide to try and be a Central Sun, or whether We stay within the heart of Alpha and Omega and work from there."

"Our original galaxy which had one hundred and fifty-six planets and Suns is a minute galaxy! There are some that have thousands and thousands and you would need your late Professor Einstein to explain that!"

"Once more let Me repeat; Alpha and Omega as one of twelve Suns in that galaxy, qualified to become a Central Sun. In like manner, the other six Suns qualified to be Central Suns, and that is why today there are seven Central Suns in this cosmic galaxy and not twelve. The Suns that now run DOWN in our present system, were in a HORIZONTAL position out from Alpha and Omega when They were a Sun. Beneath Helios and Myself you

have a very strong Sun - Hercules and Amazon! Then you have a more delicate one, Aureole and Aurea; and the last one is Dawn and Luz. (See Chart). This one will be the last to return into the heart of Alpha and Omega when We have Our Cosmic Council and decide whether We, in turn with the planets of Our System, wish to create a new system."

"Above Us are Krishna and Sophia with Seven planets out from Them, the first planet out being Illumina, the second Mazda, the third is known as Bella and the fourth is Venus!"

"In Our System, there is Helios and Myself as the Sun and the first planet out is Mercury, the second out is Aquaria, the third one is Uranus below Bella, and the fourth is the Earth, right below Venus!"

"On the inbreath the first cosmic motion is horizontal to the left, so that the Earth will move into the orbit of Uranus; Uranus will move into the orbit of Aquaria; Aquaria will move into the orbit of Mercury, and Mercury will be absorbed by Ourselves!"

"In like manner in the System above Us, Venus will move sideways into the orbit of Bella, then onward to the planets you see in the chart, and into the heart of Their Sun, Krishna and Sophia, Venus and the Earth will still be together, Venus above the Earth as now, because They both will move in one space."

"I thank you for as much comprehension, beloved ones, as you have. I want you to have this so you will understand that We are not talking as alarmists nor are the Great Ones when they ask for assistance in the changing of the vibratory action of your worlds."

## LIFE ON THE PLANET URANUS

### Chapter 4.

Beloved Vesta has explained to you that there are forty-nine planets and seven Suns in Our System. You have a double activity - the inward or horizontal motion of the planets, and at the cosmic moment you have the upward movement of the entire planetary scheme. You have your Earth, which is fourth, the beloved Uranus which is third; beloved Aquaria second; and nearest the Sun the beloved Mercury first, all planets belonging to Helios and Vesta.

The Earth will move horizontally into the orbit of URANUS; Uranus will move into the orbit of Aquaria; Aquaria into the orbit of Mercury; and Mercury will move right into the heart of Helios and Vesta - our Sun! Then from that heart at the time of the "great push", the entire planetary system will MOVE UP one!

### The Planet Uranus

The inhabitants of Uranus are all people who have developed to a point where there is neither disease, sickness, death, disintegration or decay. They are a very large people, most of them being seven to eight feet in height in their full growth. They are a golden-haired, blue eyed race, and their activities are particularly concerned with the New Age. The search for and enthusiasm for uranium on the planet Earth, is no accident at this time because from the great Uranus some individuals have come to help in this period of transition, and the radiation and outpouring of their presence has created uranium deposits which are a part of the gift of this Planet to the Earth.

These individuals have been coming to Earth for many, many ages. More have come recently but those who came through all the ages that have passed, did not reveal where they came from, where their Temples or homes were, to what planet they belonged, or what they were doing on this Earth, but the very atmosphere of Earth absorbed their planetary substance. We often smile at the tremendous search for Uranium on the Earth today, because it is a gift of somebody who magnetized and drew the very substance of the Uranium planet into the Earthplane.

The people of Uranus are now preparing to enter into the orbit of Aquaria. You have heard much about the Aquarian Age! That is because Uranus in its horizontal motion, will enter into the Aquarian orbit, and the Earth, entering into the Uranium orbit will be ready to step into the Aquarian orbit on the next cosmic wave!

All these facts about the other planets have come to Earth through individuals who originally came from these people. You have people here from Uranus, from Aquaria, from Mercury, as well as those who belong to the Earth, and each one brings some part of the memory of their planet and its evolution.

While those who came from Aquaria have brought to the attention of mankind what they call "The Aquarian Age", you will first have the "Uranium Age" when the Earth will come into that beautiful perfection which is expressed on the planet Uranus.

The present Solar System, as studied by the astronomers, is not accurate, because of the fact that a galaxy moves in a spiral and is in constant motion. They do spot Stars but do not get the proper prospectus. They pick up Stars which are in different systems, or belong to

another galaxy. The changing of the outer records of astronomy will come, although perhaps not in your day.

The people of Uranus are those described as belonging to the time when the "Amazons", the beautiful ladies of the golden hair, dwelt on Earth. Most of them came from Uranus and many of them have, during their repetition of Earth life, taken on smaller bodies in order (through cosmic wisdom) to be less conspicuous. If you had individuals who were in the full stature of the Uranium body structure, they would stand out tremendously among the smaller people who inhabit the Earth. It was the mercy and wisdom of the Cosmic Law, in order to deflect attention, that these people who remained on Earth should take smaller bodies and diminish rather than retain their own natural pattern and stature.

On Uranus, the center of the entire planetary scheme is builded on the Spiritual Priesthood, which is fully acknowledged and which governs not only the main continent where the Main Temple is located, but also the other continents on that planet. The people there recognize absolutely the Divine sovereignty of this Cosmic Priesthood.

The people on Uranus are very large in proportion and very beautiful; a three year old child stands as high as four and a half feet. They are trained from childhood in the Rites of Invocation and Radiation; in the powers of levitation, precipitation and etherealization. The Ascended Masters and Cosmic Beings walk and talk with them as you walk and talk with each other. There is no veil, no maya, no human creation around the planet and it is a most marvelous thing to see what an evolution can accomplish when there are not those rip tides of psychic energy - nothing to hinder the expansion of the Immortal

Flame of God within the heart fulfilling the Divine Plan and Pattern.

All of their buildings are colossal in size. Being acquainted with the powers of levitation, there is no need for mechanical machinery; there is no sound of motors and things like that. Everything is accomplished through the powers of conscious levitation and direction through mind force, and the coloring is done by feeling!

Let us look at a home being built by an ordinary Uranium citizen, his wife and their three children. The gentleman in question is an individual who is not ascended, and he decides to build a beautiful home. Through mind force he will cut a pattern right out of the universal light. They work mostly with the column style of architecture because, their atmosphere is perfect and their moisture does not come in rainfall from above, but is provided by a very coarse substance that comes through what is similar to your earth substance, only the earth there is a beautiful shade of green, the very earth itself being green instead of brown. The moisture comes through this porous substance, fills their lakes and rivers, their cisterns and so fills their atmosphere with the necessary moisture.

This citizen decides in himself that he is going to create a lovely home and he uses mind force. He directs his attention to the God-self and perhaps to some Master on His Star Who is developed in the science of architecture, like Serapis Bey is in regard to the planet Earth. Then through mind force he cuts out, just like a woman would cut out a pattern for a dress, a design, usually with columns; most of the buildings on Uranus do not have roofs but are open to the sky, some have temporary canopies over them for beauty's sake but not for protection from the elements.

As he cuts out the design from the universal substance mentally, the form is distinguishable to his wife and children and they are all drawn into consultation and asked if they like it. The wife may make some changes, or even the children, and then he, working with mind force, makes the changes decided upon, whatever they may be. Then comes a most beautiful thing - the coloring of this home and it is done by the entire family unit. With what? With FEELING! It is beautiful!

They get together after the home is created and each one is assigned to color a certain portion of it according to the common design. This includes even the children.

If the man is designated to do the blue part he will draw on the Flame in his heart until he gets a concentrate of blue energy in, through and around him, and then just as you put paint on with a brush, that blue energy flows out from him and covers that portion of the column, the fresco, the ceiling, floor or whatever it is that is to be blue. Then he stops! He does not go on and paint blue that portion which is supposed to be yellow! It is a wonderful, magnificent manifestation of unity.

The individual who is doing the yellow, goes on with his part and finishes up the yellow. Someone else puts in the green, and so on. They do all that through feeling! They can do it very quickly or take their time, according to their desire. Sometimes they will create a family home that will last for hundreds of years; and sometimes they will create a temporary home in the outskirts of one of their cities for summer use, and at the end of the season, dissolve it through the power of etherealization.

These are the smaller activities. When

you come into the great Temple work, only the Priesthood works on it. The Priesthood draws from the Universal First Cause the design and pattern of a great Temple to be situated at a certain strategic point on the Uranian planet. When these patterns have been accepted by the Priesthood, they are imparted to the ones who will participate in the building, and then they are builded. Many of them have been completed for many ages, but sometimes there are lesser Temples builded later, on the various continents for the blessing of certain individuals or certain lifestreams.

The waters and landed surface are both green, the water is closer to the aquamarine, and your landed surface is a darker green. The verdure and growth is variegated in color. That is determined by the aura of the individuals who represent the unit of the people residing in certain localities. Of course, the continental Devas affect the entire contour and over-all color of the various continents.

The great planetary Silent Watcher governs and controls the entire Uranian aura in the atmosphere. In the establishment of a contact between Uranus and Earth, it is important to realize that the Earth's next step will be to enter into that socket of Uranus on the horizontal motion. When the upward motion takes places, the Earth will move upward into the orbit of Venus, which is in the planetary system above ours. You have people from both Venus and Uranus living here on the Earth at the present time.

This gives you a little glimpse of what can be done in preparing yourselves for the coming cosmic initiations. If you are going to occupy the orbit of a planet where you have to create through thought, and color it and sustain it by feeling, you might as well begin on the planet Earth.

## THE PLANET AQUARIA

### Chapter 5.

Entering the heart of Helios and Vesta, We move outward to Mercury, then to Aquaria, then Uranus and then to the Earth. Presently you are abiding on the Earth, your reason for living here being because you are endeavoring to help in the evolution of the Earth and the raising of Her vibratory action. When Mercury moves into the Sun, the Earth people will be ready to move into the orbit of Uranus; Uranus will move into the orbit of Aquaria; Aquaria will move into the orbit of Mercury. All of this will bring the planets closer to Helios and Vesta. Aquaria will then be the planet closest to the Sun when Mercury is absorbed within Her heart.

Uranus is a very large planet and there are a tremendous number of lifestreams evolving upon it. Aquaria is a smaller planet and looking at it from Cosmic space, it presents a beautiful blue color, something like aquamarine, its color being a combination of the aquamarine and turquoise that you see in the most perfect jewels. Everything about it, even its verdure, flowers and its nature kingdoms are all on the Seraphic lines of the most delicate and refined stature. The people are very delicately fashioned as well; their hands, the contour of their faces, their bodies and forms are all very, very slim. They have long slender feet and golden hair like the Uranians.

The Aquarians have accomplished mastery of the Immortal Three-fold Flame of God within their hearts until it is visible so that the people of Aquaria are luminous from the waist upward and the light blazes forth. Everyone wears

a natural crown of light made up of the seven rays of the Elohim. Their jewels are precipitated fire, and all is done with delicacy and very great finesse.

Their garments are mostly in the Grecian style, both men and women. Their children are very fair and look almost like fairies as you would know them on the Earth. Their footfall is so light, because of the self-luminosity of the body, that when they move they do not even make an imprint upon the beautiful surface of the land where there grows a sort of an aquamarine colored ground covering, similar to your grass.

There are beautiful mountains in variegated colors. Some of you have seen the mountain tops pink, gold and violet, but these mountains on Aquaria are beautiful colors all over from top to bottom. Because these people levitate as easily as the Masters, you will find lovely golden pagodas and llamassaries way up in the very high places, which would seem almost inaccessible from the human standpoint.

There are seven continents on Aquaria. There are seven continents on all the planets belonging to Helios and Vesta. In the System above, the one in which Alpha and Omega belong, there were twelve continents on every planet. There is great symmetry and a great pattern in all activities of nature.

Since the individuals are self-luminous and the atmosphere has no discord, the Music of the Spheres is easily heard by all the people. The inhabitants pass through a fourteen thousand year cycle from the time the soul is born until it receives its Ascension. So-called death is unknown, and on Aquaria at the end of a life span (some live to a thousand or twelve hundred years),

since there is no disintegration or decay, the individual merely steps within a concentrate of the Fire of Etherealization which is focused in a Temple in the locality where he lives.

There are Temples on Aquaria which are like your crematories; not only every continent but every locality has such a Temple which they call "Completion". When the individual has completed a lifespan, he proceeds to that Temple, his family invariably accompanying him and, to beautiful music and ceremony, he steps within the Flame and just disappears into that Light, consciously entering into the inner realms where he foreswears his body for the time being. He often comes back and re-assumes his contact with the various members of his family. Because of the long period of life there, even if he is out of embodiment for two or three hundred years, most of his loved ones are still around and wait for him to return.

Birth on Aquaria is through the projection of the Light Rays from the chosen parents. If the individual does not care to go through a period of young childhood, he is already in full command of his faculties. He comes in wearing a very, very light garment which you could not call a flesh garment but is equivalent to that in the realm in which he abides. Often, he will take on the studies in which he was proficient before he went out, arrangements being made with his family and friends before he enters the Temple of Completion, to put his books and experiments all together, usually into a lovely golden chest marked with his name and the approximate date of his return.

This continuity of consciousness makes things very much easier for the individual who

lives on Aquaria. When he is reborn, there is a ceremony again in a Temple which they call The Temple of Opportunity. There the parents go, accompanied by family, friends and loved ones. As the parents direct the Light Rays, it forms the vortex of the heart of the incoming individual, into which the Presence of that one descends. There is no veil - the Presence descends into a Flame similar to that which causes etherealization, then the parents coalesce around that Flame a physical vehicle. It is only a matter of ten minutes or so until the child steps out of the Flame. He usually greets the parents with a hand-clasp or an acknowledgment, greets his friends, and has a period of adjustment again to the planet. He can then go and re-possess his treasures and continue with his experiments and activities of Light.

This planet is very, very beautiful and the lifestreams from it that have come to Earth can be distinguished easily by the very delicacy of their form. They will always be individuals who are very slender, rather ethereal and they carry a great buoyancy and sensitivity of spirit.

The present endeavor of Aquaria and Her people is to prepare as quickly as possible to enter into the fiery orbit of Mercury in this great Cosmic "push" of the hour!

The Mercurians are an entirely different type of lifestreams. They are tremendously charged with fire and are a very positive people. Thinking upon the nature of our Beloved Ascended Master El Morya, Who is a Mercurian, you can understand this rather well. So, the adjustment of the Aquarians to take the orbit of the fire people of Mercury is also quite an initiation! Many Mercurians are living on Aquaria, assisting to this end.

This is a "birds-eye" view of life on Aquaria. I would like you to become acquainted with the Planets which belong to the System in which you are serving. Then you can travel hither and yon in consciousness. You can go and see the people there, as well as invite them to visit you.

In your outer world contact, when you see the different types of lifestreams, you will be able to realize from whence they came, and thus understand them better. You can recognize Uranians as well as the "fire people" from Mercury, and it will be interesting and helpful to you to be able to test your own discrimination and capacity to so recognize them. Since you now have some understanding concerning their different natures, it will be easier for you to associate with them more harmoniously.

## THE PLANET MERCURY

## Chapter 6.

Dear friends, you have visited Uranus where the vibratory action is much more rapid than it is upon the Earth; where the men and women are of larger stature and where strength, vitality and power are the predominant qualities. You have also visited Aquaria where the vibratory action is much more rapid since it is closer to the Sun; where the evolution of Its people are much more quickly accomplished, and where the fine, delicate line of feature and design of person, home and Temple are so evident.

We now visit the planet closest to the Sun - MERCURY! Mercury is the first One to be called Home into the heart of Helios and Vesta in this first cosmic move, as the inbreath of the Godhead draws the Suns and Planets of Our system back into Alpha and Omega.

Every planet of Our System vibrates at a different rate. This was proven centuries ago with the experimentations of our beloved Kuthumi when He was Pythagorus. Every planet of your system has a different vibration as well as music, which represents the Keynote of the planet as it swings around the Sun. Each vibration should be a part of the Music of the Spheres. The Keynote of the planet Earth is off center and flat, a dissonance in the Music of the Spheres, and for that reason the Earth has been circled round by a special protective ring of light, so that this dissonance cannot affect the rest of Our planetary system.

The music on Uranus is strong, powerful and vibrant, like unto your Marseillaise and all

those songs like "Pomp and Circumstance" that represent Faith and Triumph.

There is delicate and beautiful music on Aquaria, rising to the Sun, and then we come to the vibratory action of Mercury!

Mercury is called the Fire Planet! Why? Because the vibratory action of the very substance of Its body is so rapid that, looking upon It, It seems to be a ball of Fire! Every electron that makes up the substance of what you would call "earth" on your planet, has no shroud of impurity or discord on Mercury. The "earth" substance there is gold, not scintillating but like molten gold, and the seas are like crystal, blazing with Light. The atmosphere around Mercury representative of the quality of the Star, is blue - a much deeper blue than that around your Earth. It carries the radiation of Hercules, Lord Michael and blessed Morya.

The people of Mercury are quick, because the vibration of the "earth", the atmosphere they breathe, the purified energy of their mighty oceans and bodies of water, all tend to accelerate their individual and collective evolution. The electronic Light which makes up the atoms of the bodies of the people on Mercury, move so rapidly that there is no earthly count that I can give which would be cognizant to your human minds. As they spin in their small atoms, they make the bodies of the Mercurians seem like spheres of light upon the planet. The beings of Mercury move not only upon their own planet with the speed of Light, but they move as Messengers to all the planets of this system. Mercury offered in Herself, Her great Silent Watcher and Her great Solar Lords, to be the cosmic Messengers to the seven planets of this system when first Helios and

and Vesta created this beautiful star.

You have some concept of the outer man's idea of Mercury as the Messenger of the Gods as has been manifested through the Greek fables and the more ancient literatures, many of which are no longer available to the outer man.

The people of Mercury from the very beginning, when their planet was established and their Silent Watcher had taken within Herself the design and the forces of the elements that composed it, and the Spirit Sparks had come forth upon It; those people with their great Manus, offered to be inter-planetary Messengers, moving wherever required; outward to Aquaria, Uranus, the Earth, and the planets of Freedom, Athene and Purity that belong to our system, and moving downward to the Suns and planets below Us, and upward to the Suns and planets above.

From the time of individualization, every lifestream upon Mercury is full grown in the bloom of what you would call maturity, about eighteen years of age on the Earth. There is no such thing as a loss of consciousness between embodiments; no such thing as the necessity of learning to govern the body, the muscles, the power of speech and sight, and the power to walk and think. Mercurians are born direct, in full control of all their faculties with the full memory of all they have accomplished previously, in the same manner as that described on Aquaria.

They are born through the conscious co-operation of two Mercurians of maturity who wish to give opportunity for the completion of the cycle of evolution of a Mercurian who has passed from the sphere of Mercury for a time, not in the state of what you call death, but in full cogni-

zance of what he is doing. When these mature men and women desire to become parents, they enter the beautiful Temple which I can scarcely describe in terms of Earth because they are so magnificent in their activities of the Flame. Almost all of them, particularly those of the Conception and those of Departure of the soul, are crystal, not just plain crystal as your outer mind knows it, but flaming, moving pillars of Light that rise from the beautiful golden substance of the earth into the atmosphere.

Let us watch two such individuals who desire to give the soul of a Mercurian birth. They take their places in the center of that Temple wherein is focused something like unto your Immortal Three-fold Flame of Almighty God, which is used on every planet of this system as the power of Cosmic Creation.

That man and woman stand and direct from the heart, head and hand the Light <sup>Rays</sup> into that Flame. The soul of the incoming lifestream and the Presence standing above It, descend into that Flame and in the matter of moments walk out, clothed in the substance of the blue air of Mercury, the golden substance of its earth, and its crystalline water, and that individual is ready immediately to perform the services which it had begun in an earlier embodiment.

On Mercury almost without exception, the first service of the newborn, fully mature in the magnificence of youth and beauty, is to go to the Temple representative of the Zodiacal sign of its birth, and there that individual remains for a time, sometimes a month and sometimes even a year. Within himself, contemplating the Flame within his heart, he re-assembles again the designs and patterns which he had been following in previous

centuries, and thus be re-polarizes himself to his Star.

When individuals leave a planet like Mercury they go to great heights. The inner realms in and around the planet Earth are of very low vibration, comparatively speaking, but Mercurians that leave the body go into realms of great Light. Yet when they re-embodify, they have to repolarize themselves and begin to concentrate upon their part, pattern and plan in the divine scheme of things.

The mercury that is on the Earth, like Uranium, is the result of the presence at some time of beings who belong to Mercury, and the very radiation of their Star anchored in, through and around the bodies that they choose to wear on the Earth, has remained as a positive proof of the Presence of Mercurians on this planet.

There are great preparations going on, on Mercury. Rapid as Her vibrations are, beautiful as are Her Spirits, every lifestream belonging to Mercury must be fully completed in their fourteen thousand year cycle before Mercury and Her people can move into the Sun. If this is not done, the same activity will take place as has taken place in all cosmic movements; the Mercurians who cannot or do not prepare in vibration to enter into Helios and Vesta's vibration, will be moved back to Aquaria. These Mercurian people have such great light and understanding that they, of course, want to move forward with their Star. There is no one among them that wishes to be left. Therefore, each individual Mercurian, as well as all those in their Temples and all their great Priesthood, join together in the most magnificent ceremonials to help Mercury and Her people individually and collectively, to meet this great initiation.

Some of them who were born late and will not have a fourteen thousand year cycle in which to complete a natural evolution, are in special Temples where they are getting the treatment of the Seven Rays quicker than usual, and, as that great Cosmic Cycle turns, they are receiving the radiation of the Seven Rays so they may be ready to move forward with their Star.

Seven magnificent Beings Who contain within Themselves the vibratory action of the Sun of Our System, have come from Helios and Vesta and will remain on Mercury - One of these great Beings residing on each of the seven continents of Mercury. They form the heart of the Priesthood, the Priesthood learning from Them and accepting from Them the understanding of the vibratory action of the Sun, and They in turn giving that instruction to the masses of the people. There are visits by the Priesthood in the company of these Messengers from the Sun, to the Sun Itself.

The science upon Mercury is magnificent indeed. The understanding of the power and control and speed of the electrons is known to the newborn. These great Beings, as well as the advanced Priesthood are studying the Sun vibrations and bringing it back so that the people on the planet may know it as well.

Those of you who have come to Earth from Mercury have done a great kindness to this planet. You return many times at night to your own Star. You are part of the great preparation for the Sun-initiation when Mercury will be absorbed, although you may choose to remain on this planet Earth. You can serve on Aquaria, Uranus, Earth or other planets that follow, but know that there is a period of tremendous application going on everywhere on this shining beautiful planet Mercury,

that waits now to be called Home!

There is much more I could say about Mercurian culture and art. If you desire to visit Mercury, ask for one of their Messengers and He will come to you while your body sleeps and take you there, if you can stand the vibration. You may even sit at the feet of Their Masters! Then you will come back renewed and refreshed in spirit - the Spirit of Mercurian Fire!

#### CONCLUSION

All this is stepping up the vibrations. So you can see how essential it is that in some way We may convey to all mankind, and especially the student body, the necessity of acceleration of the electrons of the emotional, the mental body, the etheric body and the physical!

These are various ways and means of accelerating the vibratory action of your inner and flesh bodies. One of the greatest of the natural means is through rhythmic breathing, which the students have been taught to use in the transmission of the Flame classes. I have been an exponent, devotee and Teacher of this for ages of time, because it is the rhythm of creation!

When you draw that energy into the Flame in your heart and expand it forth, you begin to come into harmony with the natural rhythm that is in all activities of nature; in the rise and set of your Sun; the rise and fall of the tide; in the changing of your seasons - that absolute, unbroken rhythm! The Golden Ages when mankind had the greatest Peace, the greatest Illumination, the greatest bodily health, the greatest opulence, were ages when the rhythm of natural life was absolutely observed in breathing and in every facet

of expression.

The whole of The Law of Life is - the rhythm of magnetization and radiation! If there is too much magnetization of power and not an equal radiation of blessings, you have broken rhythm! If there is too much blessing and ministration with out enough magnetization of the power from the Source of all Good by which YOU live, there is depletion and exhaustion and all mankind's distress, distintegration, inharmony and chaos are the result of broken rhythm.

In order to give your maximum assistance in this Cosmic Push of the hour and accelerate the vibrations in yourselves and expand then to all mankind, I ask you to make an extra effort to hold the harmonious rhythm in your voice, your work, your walk, your service, your adoration and your realization. This will enable Me to radiate through you My Comforting Presence and stimulate the Holy Spirit in all you contact.

And now, I give you the benediction of The Holy Spirit, asking that you remember to give Me your loving attention, remembering always that **EXAMPLE IS MORE IMPORTANT THAN ANY PROFESSION OF FAITH!**

A FINAL WORD  
TO  
THE STUDENTS OF THE LIGHT

TO YOU BELOVED STUDENTS OF THE LIGHT EVERYWHERE, TO YOUR LOVED ONES, AND TO YOUR FRIENDS - CONVEY THE NECESSITY TO APPLY GOD'S LAWS NOW AS NEVER BEFORE, THAT EVERY DESTRUCTIVE QUALITY WITHIN YOUR BEING BE CONSUMED AND TRANSMUTED BEFORE THE DAWN OF ANOTHER YEAR.

RAISE THE VIBRATORY ACTION OF ALL YOUR BODIES THAT YOU MAY BE PREPARED TO BE A PART IN THE COSMIC PUSH OF THE HOUR, AND THUS ASSIST IN RAISING THE VIBRATORY ACTION OF THE EARTH AND HER HUMANITY.

THE RAISING OF THE VIBRATORY ACTION OF THE PLANET AND HER PEOPLE ENABLES ALL TO MORE FULLY COOPERATE IN THE GREAT GOD PLAN. THEN AS THE EARTH FIRST MOVES FORWARD INTO THE ORBIT NOW OCCUPIED BY URANUS, AND THEN LATER INTO THE ORBIT OF THE PLANET VENUS, IN THE FINAL UPSURGE OF THE ENTIRE GALAXY, ALL MAY BE ACCOMPLISHED IN THE GREATEST HAPPINESS AND JOY.

THE COSMIC PUSH OF THE HOUR IS UPON US. THE AGE OF "FREEDOM" IS COMING INTO BEING, AND PEACE ON EARTH GOOD WILL TO MAN IS BECOMING A REALITY.
